**Subject:** RE: Third Site DNAPL Containment Area Sample Results

Good morning Andy,  
Thank you for the sample results. Please provide the data validation report.  
Thank you,  
Matt

**Subject:** Third Site DNAPL Containment Area Sample Results

Matt,

Attached are a laboratory analytical report and data summary table for the water samples collected from P-1, P-2, P-3, and the Sump in the DNAPL Containment Area at Third Site on November 30-December 1. Dup-01 is a duplicate sample for the P-1 sample location. In addition to the duplicate sample, other QA/QC samples collected included two equipment blanks, a trip blank, and decontamination water sample. As shown in the laboratory analytical report, none of these QA/QC samples contained a detectable VOC concentration.

Ramboll has completed data validation for the water samples. The analytical data are usable for their intended purpose as qualified in the data summary table. Please let me know if you have any questions.

Best Regards,

**Andrew A Gremos LPG CHMM**  
Principal
